

Xiang et al

EARLY EVOL. OF PS

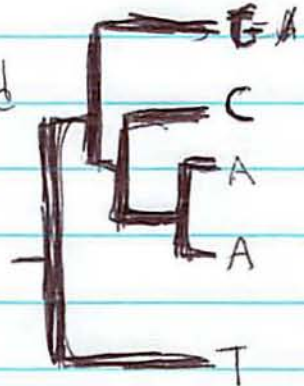

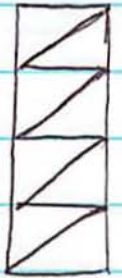

- transition from ALGAL flora → LAND plants
- phylogeny of algae

Combinability test

Believes rRNA tree is wrong

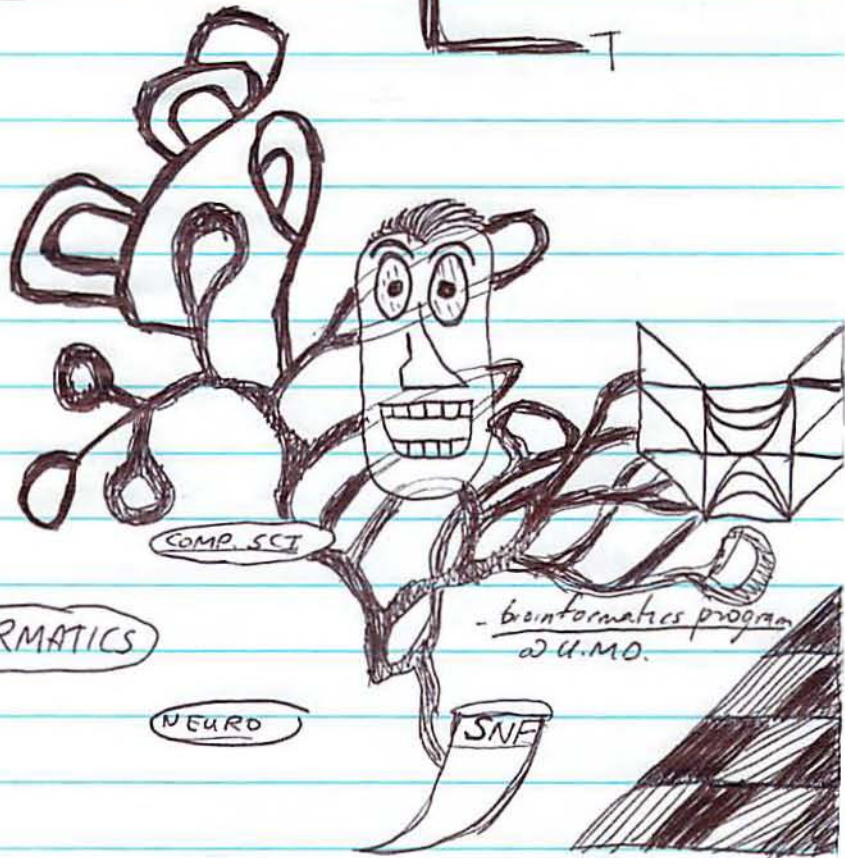

- subs. errors in genes
- don't fold well
- some are chimeras
- char. that support 1 vs other are bunched
- patchiness?
 - two trees
 - consistency indices
- 50 taxa

hypothesis

- Apicomplexan
- Ciliates
- Dinoflagellates

5-hydroxy-methyl-uracil
