

Jane Goodall

fable - which bird can fly the highest  
eagle thinks it was but when on  
bank takes off & flies higher

3 stories

① explorer collecting samples in 1870s - got close  
to the tree and all but baby left - mother  
came back & he shot her

② young chimp protecting baby brother

Just how like them we are

For many species that are being  
reintroduced it is the  
genetic
